Ships in December 2018

ICD-10-CM EXPERT FOR PHYSICIANS

The 2019 ICD-10-CM changes will soon be released by the Centers for Medicare & Medicaid Services (CMS). Be prepared with the InHealth Professional Services ICD-10-CM Expert for Physicians, which will include all 473 changes, 279 new codes, 143 revisions, and 51 deactivated codes.

Full-text of the "Official ICD-10-CM Guidelines for Coding and Reporting" is included in the Introduction (educators' preference) while code-specific guidance is repeated at the code level (coders' preference), facilitating correct code selection.

Not only are the new and revised codes marked by symbols, but we have underlined new text and stricken through deleted text to give the coder additional insight into rationale for the code changes saving time and eliminating confusion.

HCPCS LEVEL II EXPERT

These special codes for medical supplies, injectables, etc. are often overlooked or used improperly. InHealth Professional Services' HCPCS book is a cost-effective and efficient way to ensure your practice is getting paid for these items without having to re-file.

This book is more than just a listing of codes, it includes rules for code usage, tips on code selection, etc. The InHealth Professional Services 2019 HCPCS Level II Expert rounds out your complete coding and reimbursement library with details of all the supplementary codes required by CMS for supplies and services not listed in the CPT®.

FEE GUIDE

When billing surgical procedure codes, have you ever wondered whether you should attach a modifier for multiple procedures, bilateral procedures, assistant surgeon, co-surgeon, and team-surgery? Put the wrong modifier and you may lose reimbursement. Don't use a modifier, when it's needed, and the code may be denied without payment.

The InHealth Professional Services Professional RBRVS Reference will give you the answer quickly. This book will give physicians and their staff members a concise reference to use for billing procedures according to Medicare rules as defined in the Medicare Physician Fee Schedule. Use this book as a quick reference for your most common billing questions. We include nearly 10,000 physician services.
